

# Pathologist Required

## InterHospital Laboratory Partnership

### Welcome to the InterHospital Laboratory Partnership

The InterHospital Laboratory Partnership (IHLP) is a regionalized hospital laboratory service with a current affiliation of twelve hospitals serving approximately 230,000 people. The hospitals are located in rural Southwestern Ontario across Huron, Perth, Grey and Wellington counties.

#### The IHLP supplies the following services:

##### Regional Laboratory Referral System

The host hospital provides referral services including all pathology and microbiology consolidated at the Stratford Hospital site

##### Managerial and Professional Input

Common Laboratory Director, Regional Coordinator, Administrative Assistant and QA Manager for all labs in IHLP

##### Standardization, Group Purchasing

Group purchasing program resulting in considerable economies for participating hospitals savings through standardization in instrumentation

##### Continuing Education

Technical and professional development encouraged, minimum of 8 educational sessions provided per year

##### Courier

Effective, dedicated laboratory courier system for movement of specimens and supplies

## Pathology

Stratford General Hospital site, the hub laboratory for the IHLP has a vacancy for a full-time Laboratory Physician (General Pathologist preferred or Anatomical Pathologist with clinical pathology training) to join a group of eight community pathologists. The major component of the position is surgical pathology (approx.16,000 accessions/year). Applicants should be certified (RCPSC) in General and/or Anatomical Pathology with clinical pathology training and hold or be eligible for licensure in Ontario through the CPSO. The position is available after April 2019.

Interested physicians are invited to submit a Cover Letter and CV to;
