The Royal Victoria Regional Health Centre, proud recipient of the Healthy Hospital Innovators Award, is a state-of-the-art facility located in Barrie, one of the fastest growing cities in Canada. Only moments away from beautiful beaches, ski resorts, and cottage country, you will enjoy theatre, golfing, boating, skiing, and cycling!

Department of Pathology
General or Anatomical Pathologist with Hematopathology Expertise at Royal Victoria Regional Health Centre

RVH is inviting Applications for the position of full time general surgical pathologist with additional fellowship training in hematopathology.

This 462 bed center including the Simcoe-Muskoka Regional Cancer Centre specializes in cancer care, surgical services, critical care, interventional cardiology, mental health, rehabilitation services and women's and children's programs. We are also a designated Gynecologic oncology centre. The SMRCC is developing a Complex Malignant Hematology Program in partnership with Princess Margaret Hospital with the goal of providing coordinated closest to home acute leukemia and bone marrow transplant services to adult patients. The RVH Laboratory is a regional referral centre for surgical pathology and microbiology from two other hospitals in the region and provides regional expertise and secondary distribution for blood transfusion products to all hospitals in the region.

As part of our pathology team you will provide diagnostic tissue pathology services to our network of 3 hospitals (Royal Victoria Regional Health Centre, Georgian Bay General Hospital and Collingwood General and Marine Hospital) in addition to providing leadership to the hematopathology and flow cytometry service. The laboratory is fully accredited including IQMH and ISO 15189 Plus certification. Our caseload is challenging and diverse; enhanced by our involvement in the expanding services of the SMRCC including gynecologic oncology and complex malignant hematology. The current workload includes approximately 25,000 surgical pathology and 5,000 cytology cases per year and 450 bone marrow examinations.

If you are a licensed pathologist in Ontario and have an FRCPC or equivalent qualification in general pathology or anatomic pathology and additional fellowship training in hematopathology this would be an ideal opportunity for you. If you are committed to patient safety and high standards of care, come join our growing team.
