Academic Lung/Thoracic Pathologist

TORONTO, ONTARIO (CANADA)

The Laboratory Medicine Program of the University Health Network (UHN) is seeking an Anatomical Pathologist with **diagnostic and research training/expertise in Lung/Thoracic Pathology** with ability to do some work in **Cardiac Pathology** being an asset. The rank will be at Assistant, Associate or full Professor. The expected start date will be July 1st, 2025 or will be mutually agreed upon, including an earlier start if possible.

The candidate must demonstrate excellence in clinical, research and teaching activities in lung/thoracic pathology.

The successful candidate will join a team of subspecialty pathologists operating within a large academic laboratory medicine program at the University Health Network. The program offers diverse diagnostic expertise, excellent teaching activities, and exciting basic and clinical research activities/opportunities. Candidates must have or be eligible for licensure in the Province of Ontario and hold a Fellowship in Anatomic Pathology with the Royal College of Physicians and Surgeons of Canada, or equivalent. Subspecialty Fellowship training in Lung/Thoracic Pathology or several years of expertise in this subspecialty is required. Responsibilities will include participating in diagnostic and consultation service for UHN and its client facilities in Lung/Thoracic Pathology and Autopsy Pathology, as well as self-initiated and collaborative research and teaching activities. The successful candidate should be eligible for an academic appointment in the Department of Laboratory Medicine and Pathobiology, University of Toronto, with a rank commensurate with academic qualifications. Salary and benefits are in accordance with the uniform minimal level of compensation for pathologists in the Province of Ontario (currently approximately \$373,000 per annum).

University Health Network is one of Canada's largest acute care teaching organizations with over 1000 beds and 9 priority programs in Advanced Medicine & Surgery, Oncology & Blood Disorders, Transplantation, Neural & Sensory Science, Heart & Circulation, Musculoskeletal Health & Arthritis, Laboratory Medicine, Diagnostic Imaging and Community & Population Health. It maintains a major commitment to excellence in healthcare delivery, research and teaching. University Health Network is a fully affiliated hospital of the University of Toronto.

The University of Toronto and University Health Network are strongly committed to diversity within its community and welcome applications from visible minority group members, women, aboriginal people, persons with disabilities, and others who may contribute to the further diversification of ideas.

The Search Committee will begin to consider applications received starting August 31st, 2024 for shortlisting. The position will remain open until filled. Only short-listed applicants will be contacted. All qualified candidates are encouraged to apply, however Canadians and permanent residents will be given priority.
